

Human Resources and Health & Safety Support Services

Hull CVS has enhanced its HR and Health & Safety Support Service for voluntary and community sector employers.

Our work covers all aspects of HR and Health & Safety but the main areas are:

- Employment Law
- HR Advice
- Handbooks
- Contracts of Employment
- Conciliation & Arbitration
- Grievance Management
- Personnel Policies
- Recruitment & Selection
- Personality Profile Testing
- H&S Risk Assessments
- COSHH Regulations
- H & S Investigation

With the current raft of changes in employment law, non-compliance can be very expensive and it is important to tackle issues before they become too large to contain.

The service offered is personal, with the same person dealing with all issues. We listen and respect our client's confidentiality. We investigate and advise, we do not try to take over.

helping you make a difference

With a large database of information, writing of contracts, handbooks and policies becomes quicker and easier, with tried and tested documentation, that can be amended to suit individual organisation requirements, with subsequent reductions in cost. We are available for issues large or small. Our consultants are experienced and qualified to help you deal with those issues that can disrupt your organisation.

Prices start from just £50.

For this annual fee you will receive:

- Free telephone helpline support
- Free information sheets
- Free model policies and procedures
- Free health check of HR or H&S Policies

Contact details
